CROWN LUMBER CO. LTD.

YARDS AT CARBON AND SWALWELL

LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. Torrance and family and Mrs. H. Elliott were Drumbeller visitors on Tuesday.

The Crown Lumber Company have just unloaded a car of tile for Percy Edwards' Pool Room.

Miss Ione Munro was a Carbon visitor on Friday and Saturday of last week. She left for High River Sunday.

Mrs. J. Rochester returned home on Monday after spending the past three weeks visiting in Calgary.

Mrs. Geo. Van Wart is visiting in the district.

Mrs. C. Green and son, Mrs. Brooks and Miss A. Graham of Calgary, spent Friday visiting at the home of Mr. and Mrs. H. N. Elliott.

Mrs. Robertson and children of Calgary were visiting at the home of Mr. and Mrs. Thos. Ramsay over the holiday. They returned to Calgary on Sunday.

R. Lynn and G. Livingstone spent the week end visiting at Oids.

Mr. and Mrs. J.J. Greenan motored to Calgary on Friday.

W. Edwards and Gordon Ramsay motored to Calgary last Thursday to get Miss Daphne Nash and H. MacDonald.

Miss Vera Poyon spent the week end visiting at her home here.

The Misses Lucy and Florence Brydon were holiday visitors at the home of Mr. and Mrs. Jas. Ramsay.

Commencing in this issue of The Chronicle is the story by Virginia Morris, entitled "The Desert Song." Turn to page seven and read of the adventure and romance on the desert.

Don't let it be a "Dilemma" You want a season Ticket to the Carbon Chautauqua. Why not get it now?

The Carbon Elks have engaged the Farmers' Exchange hall for Friday evening, June 7th, the first night of Chautauqua, and will hold a dance immediately after the performance. The play "The Patsy" by the Martin Erwin Players, will be on the program that evening and it is expected that a large crowd will be present and most of them will remain for this big dance.

J. Kaiser has purchased Andy Gipsen's farm and Andy will hold a sale of his farm machinery, etc. at the farm on Wednesday, June 5th, at 2 p.m.

Mr. and Mrs. E. J. Ohlhauser and family motored to Calgary last Wednesday and there picked up Mr. and Mrs. Jacob Ohlhauser, Sr., before continuing to through the Canadian National Park to Banff. They enjoyed the water in the sulphur springs and as a whole they report a wonderful trip. They returned Sunday evening.

C. C. Perman has purchased the remains of the old Carbon Bakery and is tearing off the tin and good lumber to be used on the farm.

EDITOR ROBERTED—Fortunately this item on page 4 does not refer to the editor of The Chronicle, but to the editor of the Strathmore Standard.

Great Soldier's Warning Against War

One of the gravest errors some pacifists make, says Toronto Saturday Night, is to suppose that all soldiers of military ability favor war. This is far from being true and the fact is illustrated by the great British general, Field Marshal Sir William Robertson, who has on many occasions raised his voice against war as an institution for the settlement of international disputes.

Quite recently he has spoken again, pointing out that the desire to avoid another war is common to most countries. It would be strange if it were not so, he says, inasmuch as the last war cost the world ten million lives or double the number lost in all wars of the preceding 120 years put together. It also cost not less than \$350,000,000,000, a sum that the human mind is hardly competent to conceive, to say nothing of an incalculable total of distress, sorrow and injury. Its failure as a solution of international dispute is demonstrable from the fact that it left behind grievances and resentments that can not be eradicated within the lifetime of most adults now living.

Yet though war is condemned by the intelligent men of all the nations who twenty years ago thought of it lightly as an inevitable future development, not devoid of possible advantages, preparations go on much as they did prior to 1914. Sir William Robertson is genuinely alarmed over the tendency to increasing competition in armaments. All the great powers, with (we are glad to note), the exception of Great Britain, are today spending more money on armed forces than they spent five years ago. Even with a reduced scale of expenditure Great Britain is practically compelled to spend \$1,275,000,000, irrespective of the contributions of India and other parts of the Empire, from the sheer necessity of fulfilling her military responsibilities in various parts of the world and protecting sea communications. France and Italy today have approximately as many men under arms as in 1914. Germany is complaining of her defenceless position, and if armaments are piled up by her neighbors, must some day be given permission to arm also. Many smaller nations of Europe are on a military footing and maintaining a threatening attitude toward each other. The United States feels that future security demands a vast additional naval expenditure.

What does all this madness portend? Peace is a game which all must play if it is to be maintained. Let us hope that the craze for armament falls of its own weight before the nations get at each other's throats again. The only vestige of a silver lining lies in the fact that machinery for the isolation and prevention of wars now exists, a factor never previously known in the world's history; but it is plain that the miracle which will convert the human mass from madness to sanity cannot be performed with a single gesture.

Every Day Circus Day

Capital Of Southern Morocco Never Lacks Entertainment

Every day is circus day in Marrakesh, the capital of Southern Morocco, in which life goes on much as it did in the days of the Arabian Nights, according to a writer in the "Living Age." The hard-packed, reddish soil is an arena for all the fakirs and entertainers of North Africa, for the city is still the guardian of the old caravan route from the desert's rim to the sea.

Acrobats, snake charmers, story tellers, musicians, and the rest, daily and nightly entertain travellers who are armed with wicked knives, and display every skin shade from the blondness of the Riffian to the ebony of the pure negro.

Charting Swiss Glaciers

Ninety-two of the Swiss glaciers are being measured to see whether they advance or recede. A thin steel wire is fastened across the snout of the glacier attached to a dial on either side. At present fourteen are advancing and seventy-three receding.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

What Britain Has Done

Has Led the World in Disarmament Says Stanley Baldwin

"Years ago seamen sailed from Plymouth to discover a new world. We are going to rediscover a new moral world, which is a very much harder task," said Premier Stanley Baldwin, speaking at Plymouth, during his campaign tour of western England.

"We have led the way to disarmament," the premier said. "The fleet today is half the size it was in 1913. That is practical disarmament and no nation in the world can come any where near that, yet there are Englishmen who say we are lagging behind."

"My hope is that the new government will be able to conclude an agreement with the United States which will lift the whole problem of disarmament to a new plane of action and not talk."

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy, and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

New Appointment

The appointment is announced by W. D. Robb, vice-president of the Canadian National Railways, of E. A. Weir, hitherto European publicity agent of the Canadian National system at London, England, to be director of radio for the system, with headquarters at Montreal, succeeding the late A. R. McEwan.

THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but, at the same time a never-failing responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to do, yet feels them not serious enough to warrant calling in the doctor. At just such times as these it is found that Baby's Own Tablets are the mothers greatest help and friend.

Most childhood ailments arise in the digestive tract—the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and through their action on the stomach and bowels they banish constipation and indigestion; break up colds and simple fever; allay the pain accompanying the cutting of teeth and promote health-giving sleep. Concerning them Mrs. W. Jennings, Mackay, Ont., writes:—"I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Mail Service For North

Areas In Northern Manitoba To Be Brought Within Closer Touch Of Outside World

Dwellers in the remote areas of Northern Manitoba will be brought into closer touch with the "outside" world this summer through arrangements made by the Post Office Department, adding settlements at Oxford, Gods and Island Lake to the growing chain of northern mail points of call. Mail will be delivered once a week with Norway House, at the northern end of Lake Winnipeg, as the distributing centre.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonical in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

The way of the transgressor remains similar to that of the pedestrian.—Kingston Whig-Standard.

New De Luxe Train Equipment

Many Western Towns Honored By Lending Appellation To Luxurious Sleeping Cars

With a desire to honour some of the fast growing communities of Western Canada, the Canadian Pacific Railway is naming its new de-luxe train equipment in honor of these communities. Twenty-nine new sleepers of the latest type are thus called, and will be known in railway circles as the "R" series. They include eight sections, two compartments and one drawing-room, and the berth sections are equipped with semi-permanent partitions to insure greater privacy to passengers.

The new sleepers will make a great appeal to ladies, for they have a huge dressing room with plenty of lounge accommodation as well as up-to-date toilet facilities. Brown is the dominant colour scheme, carried out in tapestry, upholstery, berth curtains and carpets. All the latest safety devices are embodied in them, and marvellous ventilation is achieved through a forced process through the roof.

The points honoured in this manner by the Canadian Pacific are: Ravenscar, Revelstoke, Red Deer, Ruby Creek, Ruskin, Rutherglen, Regina, Renown, Rosetown, Rosser, Rosemere, Riverton, Robindale, Rathwell, Rocanville, Rapid City, Rosenfeld, Rosemary, Redcliff, Raymond, Romford, Reston, Regent, Renfrew, Redvers, Richford, Rossport, Rennie, Rossland.

This new series will be moved on that train over Western Canadian Pacific lines, as part of a million dollar equipment which makes up each No. 7 and 8.

New Trade Commissioner

It is officially announced that a new trade commissioner office of the Department of Trade and Commerce has just been opened in Oslo, Norway, with F. H. Palmer as acting trade commissioner, the territory covered including Sweden, Denmark, and Finland as well as Norway.

Harvest Kelp From Sea Floor

Weed Is Being Tested For Value As Cattle Fodder

Seaweed is now believed to be an extremely valuable food for cattle and other live stock, and now a Los Angeles inventor comes forward with a machine for gathering it from the bottom of the sea. His machine, which was recently demonstrated in California, is mounted on a scow. An endless belt of spiked crosspieces runs from the surface of the scow to the harbor bottom, where blades tear off the kelp. The weeds catch upon the moving crosspieces and are raised to the scow, where they are piled up like hay to dry.

The kelp is then ground and fed to farm animals with their hay and grain. It may also be used as a fertilizer, and from it can be extracted large quantities of iodine and potash. Tests are now being made to determine its relative value as cattle fodder.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

The English language is spoken by 180,000,000 people. German, by 120,000,000, and French by 90,000,000.

CANADA WILL NOT BAN LIQUOR CLEARANCES

Ottawa.—The government of Canada is not disposed at present to accede to the request of the United States that clearances be prohibited on liquor shipments, destined for that country. The door however, is not closed and the Dominion government is ready to give consideration to such representations as it may receive on this important matter.

The attitude of the government on the question of refusing clearance to liquor cargoes was indicated in the House by Hon. W. D. Euler, minister of national revenue. Mr. Euler spoke in reply to speeches by J. S. Woods, Labor, Winnipeg North Centre, and others in the Progressive and U.F.A. ranks, in which the statement was made that Canada was guilty of an unfriendly act in not acceding to the United States request. Demand for government action on the matter has been indicated by the presentation of numerous petitions during the session requesting the refusal of clearance to liquor shipments.

The minister pointed out the difficulties which inevitably arose when a country law was located next door to one which permitted the manufacture and sale of liquor.

He expressed doubt as to whether refusal of clearances would result in stopping the flow of liquor into the United States. He pointed out that if Canada was to amend the Customs law so as to refuse clearances to liquor shipments, this country would require a new and larger preventive force in order to enforce the law.

Seeding Delayed In Ontario

Late Spring and Cool Weather Is Worry To Farmers

Toronto.—Apprehension over the backward spring season is being felt generally among farmers throughout the western and south-western parts of Ontario. Farmers are becoming much concerned over the delay to seeding caused by heavy rains and continued cool weather. In most instances throughout this section of the province seeding is from ten days to two weeks behind and in some districts three weeks.

The Niagara fruit district has not reported any appreciable damage to trees and vines, but practically all farm crops are delayed.

One-Year-Old Stowaway

Was Hidden On Liner But Discovered By Customs Officials

New York.—Elisa Valerio, one year old, and said to be the youngest stowaway ever apprehended at this port, at Ellis Island, in the disconsolate colony of immigrants who will have to go back to "the old country."

Customs men discovered Elisa as her mother, Maria Dolores Valerio, a Portuguese stewardess of the liner President Wilson, was trying to carry her ashore hidden under a shawl. Elisa made most of the trip hidden in a linen closet.

Postmen In Civil Service

Ottawa.—V. C. Phelan, president of the Civil Service Federation, has announced that the Federated Association of Letter Carriers has affiliated with his organization. The Letter Carrier's Association has been in existence for some 35 years. They withdrew from the Civil Service Federation seven years ago.

Child Killed By Street Car

Edmonton.—June Dewitt, three-year-old daughter of Lieut. L. B. and Mrs. Dewitt, was instantly killed when a street car passed over her body. The child had run under the car as it was standing and was killed when it moved forward.

Workman Killed At Victoria

Victoria, B.C.—Charles Watson, of Vancouver, was instantly killed when he fell from the fifth floor of the new addition to the Empress Hotel, a distance of 100 feet. He was an employee of the Dominion Bridge Company.

W. N. U. 1787

Clergy and Tobacco

Heated Discussion Takes Place At Meeting In Toronto

Toronto.—Stormy scenes developed here at a meeting of the Toronto Centre Presbytery of the United Church over the adoption of a report by a special meeting on the use of tobacco by ministers.

Heated discussion took place regarding a section of the report which read: "That the Christian character of those who regard the use of tobacco as an innocent gratification should not on that account be impugned."

Dr. J. Kerr denounced the use of tobacco and objected to the adoption of the committee's report.

"I cannot accept Dr. Bland's report," said Dr. Kerr, "for it implies that the use of tobacco is an innocent gratification. I do not believe it is. I think it is a wasteful habit."

He presented a resolution, later adopted, which deplored the effect of tobacco on the youth of the country.

Rancher Uses Airplane

Flies From Montana To Saskatoon For Calf-Feeding Competition

Saskatoon, Sask.—G. G. Ross, of St. Kilda, Alta., who has a ranch of more than 200,000 acres on the borders of Saskatchewan, Alberta and Montana might be called "the flying rancher."

He arrived in Saskatoon last week from Great Falls, Montana, by plane accompanied by two other airmen, E. T. Vance, of the Great Falls Airway Company, and R. Laidlaw, of Medicine Hat, Alta. Mr. Ross flew here from Chicago and Great Falls to see what progress boys and girls of this district were making in a calf feeding competition for which he supplied 1,600 calves last fall. The calves will soon be brought back to Saskatoon as prime baby beef. The competition is being sponsored by the Saskatoon Board of Trade.

Trouble In China

British Prepare Defenses In City Of Canton

Canton, China.—British sailors landing from gunboats in the harbor in the Shamene quarter immediately began construction of defenses in various parts of the English concession.

Gates and bridges were closed and guards were posted. In the native city the utmost tenseness prevailed with attacking Kwangsi troops known to be not far away, although there was no definite word as to their position. Sacking of the city, the largest in Southern China, was feared in the event of capture by the red Kwangsi element which was believed imminent.

Supplied Gas For Zeppelin

Sufficient For Trip Back To Germany Obtained In France

Cuers, France.—French naval authorities here supplied the German dirigible Graf Zeppelin with 3,000 cubic metres of hydrogen lifting gas.

It was explained that the ship's lifting gas supply had been carefully apportioned to the load to be lifted and which, while sufficient for the trip to America, was not sufficient for the three additional persons aboard who intended flying back to Friedrichshafen in the dirigible.

Promise To Be Good

Des Moines, Ia.—Dean E. C. Calloway, who represented students and faculty of Des Moines university at the meeting of the Baptist Bible Union of North America, in Buffalo, N.Y., has obtained a pledge from the students that there would be no more rioting or violence when the trustees return.

Was Lonely

Toronto.—Becoming depressed through loneliness, an English domestic employed in a local hotel who had been in Canada only a week, put long distance telephone call to her folks in London. Her employer announced that the \$50 costs for the phone call will be deducted from her wages.

Canada ranks third in importance as a source of metals of the platinum group, after Russia and Colombia.

DELEGATE TO INTERNATIONAL SUFFRAGE ALLIANCE

Hon. Mary Ellen Smith, of Vancouver, the first woman to be appointed to a cabinet office in the British empire, who will address the International Suffrage Alliance in Berlin.

Submarine Disasters No Longer Possible

Naval Officers Consider Demonstration Of Rescue Great Success

Colon, Canal Zone.—For the first time in the history of the United States a navy submarine and its crew were raised from the bottom of the sea in Panama Bay. On May 17, the S-11 went down to a depth of 87 feet, was found by the submarine S-12, and was raised by the rescue ship Mallard a few hours after going to the bottom.

Naval officers here were so impressed with the demonstration that they said no disaster such as followed the sinking of the S-51 or the S-4 was now possible.

The S-12 caught the signals just one hour after the first call from the S-11. Then the rescue ship Mallard started for the spot and sighted air bubbles at 10.30 a.m. Twenty-five minutes later a grapnel had been hooked on to the sunken submarine.

Resigns Chancellorship

Sir Robert Borden Has Tendered Resignation As Head Of Queens University

Kingston, Ont.—Announcement was made at Queens University that the chancellor, Sir Robert L. Borden, has tendered his resignation.

Canada's war-time prime minister was elected to the chancellorship five years ago to succeed E. W. Beatty, K.C., who was chosen as chancellor of McGill University, Montreal. Sir Robert presided at the convocation of arts and sciences graduates at the university nearly two weeks ago.

The name of James Richardson, of Winnipeg, is being prominently mentioned as a successor to Sir Robert, although nothing has been said at the university. Sir Robert's resignation will be considered by the senate and the trustees of the university.

Joint Radio Control

Plan Is Endorsed By the Royal Society Of England

Ottawa.—Joint control of radio broadcasting by the federal and provincial governments, with special preference given to educational programs, public information and entertainment, was endorsed as the best policy for the Dominion at a session of the Royal Society of Canada.

Another feature of the day's proceedings was the defeat of a recommendation submitted by a sub-committee which would have limited the printing of scientific papers in the official journal of the society.

The decision concerning radio control, made in response to a request by the Royal Commission on radio for the society's opinion, was reached largely as the result of a report made by Dr. H. M. Tory, head of the Federal Research Council.

Mgr. Camille Roy, rector of Laval University, delivered his presidential address, in which he cited the society as a model for development of co-operation among all the races and intellectual spheres from coast to coast in the Dominion.

Following his address, Mgr. Roy presented the Sir Joseph Flavelle medal for outstanding work in science to Dr. A. H. R. Buller, University of Manitoba, and announced that the J. B. Tyrell medal for outstanding work in connection with the history of Canada had been awarded to Prof. George M. Wrong, University of Toronto. Mgr. Roy himself was made the recipient of the Lorne Pierce medal for excellence in pure literature, especially French-Canadian literature.

A Day Of Thanksgiving

June 16 Is Unofficially Announced As Date Of Thanksgiving For Recovery Of King

London, England.—It is understood that Sunday, June 16, has been selected as the date that King George will appoint as a day of thanksgiving for his recovery from his recent grave illness.

The programme as unofficially forecast, contemplates a special service at Westminster Abbey, attended by the King and Queen, and other members of the royal family, to which the public will be admitted.

It is recalled the King, in a special message from Craigwell House on April 22, said he looked forward to joining with his people "on some appointed day" in thanking God not only for his own recovery, "but for the new evidence of growing kindness significant of the true nature of men and nations."

Urged To Pay Interest

Montreal.—The government of Canada should pay interest on all money held by it and refundable to citizens. Such a course is required by equity as the government enjoys the use of such money pending repayment on account of taxes, etc. So states a resolution adopted by the Canadian Chamber of Commerce and sent to all members of the House of Commons and the Senate.

THREE MEMBER GRAIN BOARD IS RECOMMENDED

Ottawa.—In order to give Leslie Boyd, chairman of the grain commission, and Matthew Snow, who is a member, an opportunity to confer over recommendations they will submit to the agricultural committee of the House of Commons, the committee met only a few minutes this afternoon.

It was explained by Hon. James Malcolm, minister of trade and commerce, that the two commissioners who are witnesses before the committee have not had an opportunity to talk matters over, because Mr. Snow has been in the West and Mr. Boyd has been undergoing treatment in Montreal.

A three-member grain board, with headquarters at Winnipeg and some six sub-commissioners or field men to inspect elevators, deal with complaints and to investigate conditions in the various grain growing districts in Western Canada were urged by Mr. Boyd.

The sub-commissioners would be located at Edmonton, Calgary, Regina or Moose Jaw, Northern Manitoba and Southern Manitoba. There should also be additional elevator inspectors for the rush seasons. Three members of the board would be better than five as proposed, he thought. The members should meet often so that uniformity in its decisions could be obtained.

Mr. Boyd agreed with the suggestion that one member of the board visit the markets of Europe each year so that each member would get the overseas viewpoint once each three years. He thought the situation with the staff of the board under the civil service commission was fairly satisfactory.

As to the claims of Regina for the headquarters of the grain board, Mr. Boyd agreed Regina was more nearly the centre of the prairie grain growing districts than Winnipeg, but most complaints had to be adjusted at the company headquarters, which were at Winnipeg. It was for this reason he favored Winnipeg.

Seeking Air Mail Route

Swedish Aviator Thinks U.S.-Scandinavian Summer Service Possible

Stockholm.—A possible summer route for air mail service between the United States and Scandinavia is being sought by Capt. Albin Ahrenberg, Swedish flyer, who hopes to set out about June 3, on a three-stop flight from Stockholm to New York. Ahrenberg believes it is practicable to operate an air mail service along the northern route between mid-April and mid-September.

The hop, skip and jump trip to New York should take about three days, Ahrenberg thinks.

Aims To Make Good

Man From England Has Determination To Win Out In Canada

Toronto.—Worth "20,000 quid" (£20,000), as he termed it, George Westbury, of Ascot, England, arrived in Toronto with £2 in his pockets, determined to prove to England's submerged classes that a man with pluck and determination can make good in Canada.

"I have two pounds in my pocket now," he said, "and I'd rather put a shot through my head than caddy home for more money."

Amend Bankruptcy Act

Ottawa.—Second and third readings were given in the Senate to a measure amending the Bankruptcy Act. Senator Jacques Bureau, the sponsor, explained that the purpose of the bill was to require persons seeking to have debtors adjudged bankrupt to take legal action in the judicial district of the alleged insolvent.

All Had Same Name

Battle Creek, Mich.—On one day recently three residents of this city named Carpenter, died—Orrien G. Carpenter, 34, Frank R. Carpenter, 45, and Adelbert Carpenter, 50. The three men were not related.

EXPRESS SHIPMENTS BY AIR

Express shipments between Canada and European Continental countries are handled in part by air service under an arrangement reached between the Canadian National Express and the Imperial Airways, the French Air Union, the C.I.D.N.A. of France and other important continental air lines. The first shipment thus handled was flown recently from Croydon Aerodrome, near London, England, and consisted of a small lot of valuable Canadian furs shipped from Canada for a Paris salon.—Canadian National Railways photograph.

Editor and PublisherTHE ROMANCE OF THE
RURAL PAPER

Though, no doubt, life may often seem a stale thing to him, as it does to all of us at some time or another, the editor of a small town newspaper, whether he realizes it or not, is really an Empire builder of no small order. When city people scan the news items in a country weekly, they are sometimes tempted to smile at the importance assumed by items which seem of no great moment. But the fact that some well known citizen suffered a broken leg when his horses ran away with him—and every citizen is well known in a small town—is a matter of first class importance out there. Open up a city daily—any city daily, whether it is Montreal, New York, London or Paris—and you will find column upon column of local sensations, which seem very small stuff for this distance. Editorial writers screech their disapproval or praise, as the case might be, of some local policy of paramount concern to the citizens. Generally speaking, the difference between

the problems discussed in, say, the New York Times and the Bingville Bugle, is only relative. So let not the city dweller sniff at the small town paper nor the small town citizen under-rate the usefulness of the weekly sheet on which he relies for his news of the Community.—Calgary Albertan

AN EDITOR ROBBED

While the editor was hard at work Tuesday afternoon, trying to dash off news, two gypsy girls appeared on the scene and wished to tell his fortune, but he refused. They soon retired and a few minutes later ye editor found that all the capital he possessed (\$4 to be exact) had disappeared from his pocket. He thereupon let a yell and dashed madly down the street looking for the girls, but they

(231)

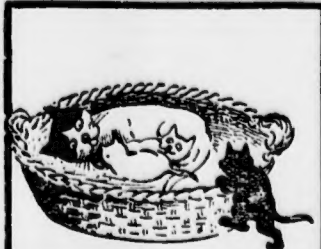

Arthur W. Cullen, Chicago wheat king, is erecting a hotel in his native city of Guelph, Ontario, which will be operated by the Canadian Pacific Railway. A golf course and pleasure park will be also established, the whole undertaking involving an expenditure of about \$2,000,000.

The sumptuous new Solarium lounge car put into service by the C. P. R. as rear end equipment aboard the Trans-Canada Limited is being nicknamed the "mustard plaster car". It was facetiously suggested by railway officials that the company should provide passengers with mustard plasters as it was recently claimed in England that these were more effective than ultra-violet rays. This contention was disproved, however, and the trouble taken by the railway in glazing the end sun room of the car with special vita-glass, which admits the ultra-violet and most beneficial rays of the sun, was justified.

Snicklefritz -----

Vicar (filling in date on baptism certificate): Let me see. This is the eighteenth, isn't it?

Mother: Lor' lumme, sir, no! Only the sixth!

An English visitor says the only thing he doesn't like about Canada is the lack of old ruins. "We have 'em old top, but you can't tell it after they get their paint and powder on."

Slow Paying Customer: I've brought in that last pair of trousers to be resealed. You know I sit a lot.

Local Tailor: Yes, and perhaps you have brought a bill to be receipted. You know I've stood a lot.

"The world's a small place," said the bore. "For instance, at Easter in Paris I met a man who lives in the

next road to me. Later I met him in Venice, then in Rome, again in Alexandria and finally I crossed the channel with him. What do you think of that?"

"Why didn't you pay him what you owed him in the first place?" asked the little man in the corner.

Wife (showing husband expensive fur coat)—One really can't help but feel sorry for the poor thing that was skinned for this.

Husband—I appreciate your sympathy.

Why have some Scotchmen a sense of humor?

Because it's a gift.

Then there was the Scotsman who declined to attend a spiritual seance for fear the message might be collect.

A man comes into the world with nothing on him, but let him try to run for office once and he'll find out it's different.

"Why is a woman like a sail boat?" "Because they both make a better showing in the wind."

SHORT COURSE FOR SCHOOL FAIR PRIZE WINNERS

A week's short course for the winners of scholarships at the various fairs in the district will be held at the Claresholm school of Agriculture, July 13 to 20. Some 45 boys and girls are expected to be in attendance.

WEED INSPECTORS

Weed Inspectors have now or will shortly commence their season's work and are anxious to do their duty and show results for the labor and money expended.

While in the main farmers welcome weed inspectors and take advantage of their services it is unfortunate that there are many farmers who are still antagonistic.

Weeds appear even with the best of farming and good farmers continue with their destruction as they appear from time to time. Other farmers make no attempt to cope with their problem and go as far as to seed land that is unfit for cropping with the result of a decreased yield and unprofitable crop. Such a situation is disappointing to the farmer and a source of trouble to the weed inspector and neighboring farmers.

A careful decision should be made as to the advisability of seeding on summerfallowing weed infested lands as the result of seeding such lands is generally an unprofitable crop and trouble from the weed inspector, but the fact remains that the farmer is himself responsible for that situation and the weed inspector merely attending to his duties.

At this season of the year young plants of stinkweed, mustard and pig weed can be effectively eradicated by the liberal use of the harrow drawn in the same line as the seeder. When the mulch is reasonably dry this will destroy millions of weeds and may be repeated until the grain is six inches high. As a rule this does not damage the grain but in weed infested lands where repeated harrowing is necessary it might be advisable to seed a little header.

BOIL IT DOWN

If you've got a thought that's happy—

Boil it down.

Make it short and crisp and snappy—

Boil it down.

When you've thought its coin has minted

Boil it down.

Down the page your pen has sprinted,

If you want your effort printed—

Boil it down.

Take out every surplus letter—

Boil it down.

Fewer syllables are better—

Boil it down.

Make your meaning plain. Express it

So we'll know—not merely guess it;

Then, my friend, ere you address it,

Boil it down.

Cut out all the extra trimmings—

Boil it down.

Skim it well—then skim the skimmings—

Boil it down.

When you're sure 't would be a sin to cut another sentence in two,

Send it on and we'll begin to

boil it down.

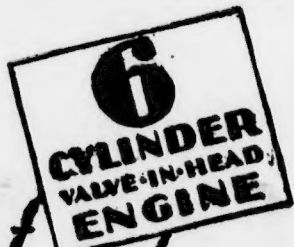

NORTHERN CROP CONDITIONS PROMISING

Crop conditions throughout the Peace River country are very promising at the present time and the season is somewhat more advanced than in the more southerly sections of the province according to Hon Verner W. Smith, Minister of Railways, who has returned from an inspection trip of the northern railway lines. The movement of people into the Peace River country during the past year or two is being reflected in considerable increase in crop acreage.

CARTER'S LITTLE LIVER PILLS

W. N. U. 1787

A Munificent Gift

Mr. W. H. Askew, Of Scotland, Donates Large Sum To Aid British Colonization In Canada

The Department of Colonization and Development of the Canadian Pacific Railway announces a munificent gift on the part of Mr. W. H. Askew, of Ladykirk, Scotland, to the cause of British colonization in Canada. Mr. Askew who is a gentleman of means and well known in Scotland for his broad public spirit, has provided ten thousand dollars to enable suitable families from the border regions of England and Scotland to emigrate to Canada and engage in agricultural work.

Forty of these families are now on their way from Great Britain, and their departure has received wide publicity in the British press on account of the original circumstances under which these families are being moved.

The fact that Mr. Askew has provided ten thousand dollars makes possible, under the provisions of the Empire Settlement Act, an advance of a further ten thousand dollars for the forwarding of suitable British families to Canada. The Act in question authorizes the Secretary of State to co-operate with private organizations in formulating and carrying out schemes for affording joint assistance to suitable persons in Great Britain, who intend to settle in any of the Overseas Dominions. It is quite possible, therefore, that as a result of Mr. Askew's decision to assist prospective British colonists in the manner mentioned, three hundred families may be enabled to come forward to Canada. The number depends on the precise amount advanced to each particular family.

At Mr. Askew's request the Department of Colonization and Development, Canadian Pacific Railway, has entered into an agreement with the Secretary of State for Dominion Affairs, for the recruiting, placement in agricultural occupation and all general administrative work connected with the scheme.

The families which will arrive during the next week-end will be at once distributed on arrival in Canada in placement which has already been assigned; twenty-five families having been allocated to the Canada Colonization Association, subsidiary of the Department of Colonization and Development; others will occupy new cottages erected by the Colonization Construction Branch of the Canadian Pacific, and the remainder on farms prepared by the Canadian Pacific under the agreement made last fall with the Overseas Settlement Committee.

Asked for his personal comment on this new scheme Colonel J. S. Dennis, C.M.G., Chief Commissioner of the Department of Colonization and Development, said: "I have no hesitation, whatever, in saying that Mr. Askew's magnificent action is a strong reminder that the whole matter of the movement of British colonists to Canada calls for special efforts on the part of all organizations and individuals who are in a position to speed up the important task in question. As is well known we have always concentrated our efforts on the movement of the largest possible number of British settlers to Canada, spending large sums in that connection, but due to conditions which have existed in the last few years and the administrative difficulties, which seem to arise, now and again, under the apparently necessary numerous regulations which must be observed, results have been disappointing. The Askew scheme, however, as it is sure to be widely known in the future, marks a step forward in the progress of British colonization in Canada, and we are greatly pleased, of course, that Mr. Askew should have seen fit to ask us to join in this proposal, which is now eliciting much commendation in Great Britain, and will continue to reflect the greatest credit and satisfaction to its sponsor."

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

The Board Of Health

Strolling along the quays of New York harbor, an Irishman came across a wooden barricade placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated.

"Pshaw! this boarding for?" he enquired of a bystander.

"Oh," was the reply "that's to keep out fever and things like that, you know."

"Indeed!" said Pat, "olive often heard of the board of health, but be jabbers, it's the first time ol've seen it."

Record Of Earthquakes

On the average over 700 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

Minard's Liniment for sick animals.

Your food
doesn't do you any good
if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.

Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

Carload Of Muskrats

One Thousand Animals Shipped From Oak Lake To Germany

A carload of live muskrats bound for Hamburg, Germany, left Oak Lake at the end of April, via the Canadian Pacific Express, there being 1,000 animals in the shipment. They were trapped in the Oak Lake breeding grounds and shipped in boxes by Furs Limited, each box containing twelve pair. This is believed to be a record shipment.

HOUSEHOLD CARES

Fall Heavily On the Woman Who Is Run Down—Thin Blood the Trouble

To the woman who has her household to do and her family to attend to, illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion she has little relish for food, and always feels tired and nervous. The trouble is poor blood—thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich, red blood which comes through the use of these pills promptly restores anaemic sufferers to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. MacDonald, Cardigan, P.E.I., who says:—"I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my household alone. My husband thought I would never get better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now; or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Bow Bells Out Of Order

The noted bells of Bow Church in the City of London, the bells that chimed the old tune, "Turn again, Whitlington," are not ringing. The bells are out of order and money for their repair not available.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

SUNDAY SCHOOL LESSON

JUNE 2

LATER EXPERIENCES OF JEREMIAH

Golden Text: "Blessed are ye when men shall reproach you, and persecute, and say all manner of evil against you falsely, for My sake."—Matthew 5:11.

Lesson: Jeremiah 20:1-6; 37:1 to 38:28; 43:1-7.

Devotional Reading: Matthew 5:3-11.

Explanations and Comments

The Princes Fear the Influence Of Jeremiah and Seek His Death, verse 4.—Jeremiah was held a prisoner in the guard-house at Jerusalem during its siege by the Babylonians. He could still address those around him, and he prophesied the fall of the city and advised surrender. The effect of his words was to weaken the courage and purpose of the fighting power of the people. The princes denounced him to the king as one whose words weakened the defense of the city. "Let this man be put to death," they urged, for "he seeketh not the welfare of this people, but the hurt."

"So, then, am I become your enemy by telling you the truth?"—Paul.

Jeremiah Is Cast Into a Dungeon, verses 5, 6. "He is in your hands," said the weak king, and with this gesture of helplessness acknowledged that he could not withstand them; they could do with Jeremiah as they would. "He was afraid of his princes, afraid of his enemies, afraid even to be himself."—Emily Huntley.—"Zedekiah miserably vacillated between listening to the prophet's counsels of surrender and the truculent noble's advice to resist to the last gasp. Like most weak men, he was afraid to do right, and fancied that he was compelled by the force of circumstances to do wrong. So he drifted and drifted, and at last was smashed to fragments on the rocks, as all men are who do not keep a strong hand on the helm and a steady eye on the compass. The winds are good servants but bad masters."—Alexander MacLaren.

Four Hundred Years Ago

Luther's Catechism Is Still Being Used In Lutheran Schools

While text books change often and few studies today are a decade old, one yet in use can celebrate its four hundredth anniversary with the Lutheran World Congress, June 25 to July 31. "Luther's Catechism" was written four hundred years ago, and still is used in Lutheran schools. The Lutheran church is the largest Protestant church. Its membership is estimated from 75,000,000 to 80,000,000, mostly in Northern Europe and America. The three books translated into most languages in the world are: The Bible, in about 80 languages; "Luther's Catechism," in 137; "Pilgrim's Progress," in 107. The most translated hymn is Luther's "A Mighty Fortress," in 150.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

How To Dye An Old Rug

Successful Method That May Be Used In the Home

Old rugs may be dyed at home in a practical manner reads an article in the May issue of "Successful Farming."

"First of all, spread the rug out flat and scrub thoroughly clean with one can of rug soap and water. Let it stand for fifteen minutes and then spray well with cold water from the garden hose, or rinse with buckets of cold water. For a 9 x 12 rug use six packages of one of the standard, well known brands of dye designated for silk and wool mixtures. Set the color with a half pint of vinegar, full strength. The rug will take the dye nicely while still damp but the drying takes some time."

A Logical Conclusion

Father—"Jimmy, why did you lick the little Jones boy?"

Jimmy—"You told me to."

Father—"I told you to! Why, my son, what do you mean?"

Jimmy—"Didn't you tell me the other day that it was more blessed to give than to receive?"

Father—"Yes, but—"

Jimmy—"Well, I had to give him a lickin' or receive one."

Only those who have no worries can afford to look worried.

To Stimulate Sheep Raising

Plan Inaugurated In Manitoba To Assist Farmers

The proposal launched in Brandon during March by His Honor, Lieutenant-Governor James D. McGregor, for the stimulation of sheep-raising in Manitoba, has now been put on a working basis in Winnipeg. The Manitoba Livestock Credit Company, Limited, has been organized with the aims and objects of assisting the farmers of the province to put more sheep on their property. The authorized capital of the new company is \$500,000 and A. L. Cresslin, of Winnipeg, is president, Hon. J. D. McGregor, vice-president, John McEachern, treasurer, and Thomas A. Acheson, secretary and manager.

It Will Relieve a Cold.—Colds are the commonest ailments of mankind, and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

World's Highest Bridge

The new Grand Canyon Bridge on the Arizona Highway, is 485 feet in height, and therefore beats the hitherto unassailed record of the Victoria Falls Bridge with its 425 feet from the river's bed.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

The Desert Song

—BY—
VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"The Desert Song" is a Warner Bros. picture of this novel. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

CHAPTER I.

Greedy the copper coin of the sun was tossed by some invisible hand into the coffer of the desert. Now a purple radiance suffused the burning sands till the deepening twilight gradually wrapped its cloak all around. A few hours before a pure silver moon had been poised in the cloudless daylight sky, but as night descended this assumed a golden red and seemed to retain, concentrated in its mellow circle, all the glow and color of the desert landscape that was now clothed in a nocturnal mantle.

Out of the range of the moon's brightness silver stars began to show their glinting lights. A soft cool breeze slowly blew up, shifting the sand drifts into new undulation that stretched to far horizons. The majestic silence was so intense as to be almost audible.

One would have sworn that not a human being dwelt within ten leagues of the spot. Then all at once out there in the infinity of desert space arose a faint stirring. For a moment nothing was seen, but as the stirring grew into a definite far-off sound, under the rich light of the orange moon there appeared a tiny speck where sand and sky met on the distant horizon. Over the crest of the dunes another speck appeared, followed by countless others. But now the leader was distinguishable as a rider on a fleet-footed horse, followed by a ribbon of other desert cavalymen clad in turbans and flowing robes, their rifles held high in their right arms to proclaim their warring spirit.

The swish of galloping hoofs raising granules of sand in a dusty trail behind them was at first the only sound to break the stillness. But as the last rider came into view over

the crest of the distant slopes the voices of a hundred men filled the night singing the rousing bars of their tribal song, the song of the Riffs, those desert outlaws who have scorned the domination of the alien French.

Far across the desert these riders swept until they reached the crags where they had their secret encampment. Up a short trail their horses climbed to an opening in the rocks that formed a narrow cave. Here they dismounted. Some vanished to where a cauldron was stewing goat's meat for the evening meal.

In the fire's light Sid El Kar, Lieutenant to the Red Shadow—the leader of the Riffs, examined some messages that the horsemen had brought from scattered members of the tribe. The subordinate who stood beside him ventured a worried comment:

"I hope the French don't find us. This new leader of theirs, Captain Paul Fontaine—"

Sid El Kar uttered a vile oriental oath and spat in the sand. "To the devil with him. For five years the frog-eaters have been chasing our band and all they have caught—is our dust!"

"But," put forward the other, "it is different this last week since Captain Fontaine has taken command. Three times they have nearly trapped us."

Sid El Kar's mouth framed a contemptuous sneer. He pointed to the tent that lay pitched closest to the fire.

"Our Red Shadow is a match for a million Captain Paul Fontaines!"

There were few faint hearts in the Riff band. They had confidence in their prowess as fighters and above all in the bravery of their mysterious and intrepid leader, the Red Shadow. A stranger out of nowhere, he had come to champion their cause against the tyranny of the French who believed that the desert people were best subdued by the imperious attitude of conqueror and vanquished. But even against the armed forces of the French garrison, the Riffs had succeeded in preserving their independence. Now led by this fearless desert Robin Hood, they defied the rule of the foreigners and defended their desert brothers against the domination of those who failed to understand their customs or their emotions. Surely the Red Shadow was sent by Mahomet to protect his children! None knew whence he came, but when the signal fires were lit and the Riffs assembled, the Red Shadow always appeared as if by magic. Then when the good work was accomplished he rode off, where no one could say.

Attracted by the savory scent of the cooking, other members of the band who had watered their horses and tethered them, now drew near the fire. To their companions who had remained in camp they recounted the news they had gathered on their latest expedition. The whole town, it seemed, was talking of this Captain Paul Fontaine who, with a regiment of devils from the Foreign Legion, had set out to discover the Riffs' hiding place. General Birabeau, commandant of the post, was offering him every assistance with additional horses and troops.

They had picked up another juicy bit of gossip, too. Captain Fontaine was in love, madly enamoured of a beautiful and chic French girl, Margot Bonvalet, who had recently come out from Paris. Her father, so one said, was a lifelong friend of General Birabeau, and it was at his quarters that she was staying—and breaking the heart of every handsome officer in the regiment. But her preference, it was clear, was for Fontaine who had promised her, with a gesture of bravado, that he would bring her the Red Shadow as a prisoner.

The threat caused a wave of merriment among the band. The Riffs would never fall under the power of the French!

"To kill the Red Shadow, Fontaine must kill us all!" shouted one of them lustily.

"May evil spirits possess them, Fontaine and — Margot Bonvalet!" added another fiercely.

All at once their talking ceased. They drew themselves to military attention. For before them stood the Red Shadow himself!

CHAPTER II.

Every line of his fine straight figure proclaimed the fighter. He wore a loose, bright scarlet burnoose, the hood of which was held firmly around his forehead by a white band. He was shod in gleaming black military boots and his sword was sheathed in the scabbard that hung beneath the folds of his cloak. His chin suggested that his face was as handsome as his physique but one could not be sure of this because his cheeks and eyes were concealed behind a scarlet mask. This, which he always wore, had helped to surround him with an aura of mystery for even his closest henchman had never seen him without it.

With a wave of his hand, the Red Shadow signaled his followers to be at ease. They relaxed from their military attitude and segregated into small groups. Their leader approached Sid El Kar and Hassi, who was another of his trusted fighters in spite of his advancing years.

"I overheard this talk of Captain Fontaine," he said, "and I scorn his threats! But I do not like the references to this girl they call Margot."

His listeners looked up in surprise. Then he continued, addressing himself to Hassi, "My friend, I want your promise. The sign of the Heart and the Head."

"It is gladly given," affirmed the oriental as he placed his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signifies a sacred pledge.

The Red Shadow lowered his voice to a whisper, "If anything should happen to me, no harm must ever come to Margot Bonvalet!"

The two Riffs regarded him with astonishment.

"Master, I do not understand," said the perplexed Hassi.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

"No," agreed the Red Shadow, "you do not understand me. That is because you are Mohammedans while I am French."

"But," interrupted Sid El Kar, "none of the band knows you're French, except us two!"

"That is why I am asking this promise of you," insisted their leader. "No harm must ever come to Margot Bonvalet."

"Now, listen, Master," argued Hassi, "after all she's only a woman."

"That is the oriental in you," retorted the Frenchman, "you cannot understand western love, but let me tell you this, I would not be your leader if it were not for this Margot."

Then for the first time he disclosed to them the motives that had led him, an outsider, to champion the cause of the Riffs and their people. A strange story it was that he told them! Eight years ago in Paris he had fallen in love with this girl. She had refused to take him seriously, had called him a silly boy—so he had enlisted in the French army to prove to her that he was a man. He set out from home with a contingent sailing for Morocco, under the command of General Fontaine, Captain Fontaine's own father.

This general had been notorious for his cruel treatment of the natives. Sometimes his own men used to refer to him secretly as the Butcher. One day he had commissioned the one now known as the Red Shadow to raid a certain village. The soldier had refused to exercise this unnecessary brutality and his superior had struck him full in the face, cursing him and calling him a cowardly traitor. To escape the inevitable sentence that the court martial would pass for insubordination, he fled to the hills where the Riffs made their lair.

(To Be Continued.)

Some girls get husbands, and some never learn the art of telling men how wonderful they are.

North: "I like to be alone."
West: "Well, you could stay at home evenings!"

Why go to Peru?

When crude oil is so plentifully available here in North America, why does Imperial Oil Limited go 4000 miles to Peru for the crude from which Marvelube is made?

It is because Peruvian crude has lubrication properties which make it particularly desirable as a base for a superior motor oil.

That is why Marvelube is giving aircraft operators longer periods between engine overhauls and a greater margin of safety.

Marvelube meets the needs of the modern high-speed motor, in the air or on the road, because its carbon-free and heat-resisting superiorities are created by Nature herself.

Let Marvelube give you the benefits of better lubrication. There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 5, Barton St. East, Hamilton, Ontario, Canada.

ANNUAL TRUSTEES' CONVENTION
AT ELMORA, FRIDAY, JUNE 14

The Annual convention of the school
Trustees' Association, Trochu Inspec-
torate, will be held this year at Elmora
on Friday, June 14th. There is a splen-
did program arranged for the occasion
and at this time Hon. Perrin Baker
will speak on the Proposed School Bill.
This convention should be of great
benefit to all school trustees, as many
important subjects relative to their
duties will be discussed and it is to
be hoped that as many school trustees
as possible will avail themselves of
this opportunity on June 14th, and at-
tend the convention.

FINE TROPHY FOR
CAMPAIGN AGAINST
CROWS AND MAGPIES

Farmers, Ranchers and other sports-
men, wishing to get pheasant eggs for
hatching, and live pheasant chicks in
connection with the stocking move-
ment which is spreading rapidly
throughout the province, have been
able to secure supplies through the
Calgary Fish and Game Association.
The association operates without profit.
It is actuated by the desire to help
the stocking movement.

Those who are interested may se-
cure information by communicating
with the secretary of the Calgary Fish
and Game Association, c/o The Cal-
gary Herald.

The Alberta association and the lo-
cal Associations are also conducting
a vigorous campaign against crows
and Magpies. The suggestion eman-
ating from the Hanna Fish and Game
Association that a trophy for competi-
tion between the thirty-five locals
in the province be donated, resulted
in a generous contribution by Mr. A.
E. Cross of Calgary, of a trophy for
this purpose.

The regulations respecting the trophy
will be announced later.

The Alberta Association is backing
up the U.F.A. and Alberta government
in the war against pests.

Father: "Didn't your friend stay
rather late last night?"

Daughter: "Perhaps, but I was
showing him some photographs."

Father: "Well, sometime show him
some of my light bills."

Who Does Your Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
